THE MOTHER OF MINERAL MAKEUP

Diane Ranger

CEO and Founder of Colorescience

Inventor of Powder Sunscreen

A major influence in the cosmetic industry, creating trends and movements for over thirty years.

"Recommended by leading Dermatologists and Celebrity makeup artists alike, Diane Ranger and Colorescience are truly blending the line between Colore and Science. In 1976, Diane first revolutionized the cosmetic industry when she founded Bare Escentuals and invented mineral makeup, which in turn created the multi-billion dollar mineral makeup industry.

Colorescience is the evolution into the 21st century of mineral colore skincare. Completely free of the dyes, talcs, fillers, mineral oil, perfumes and other ingredients found in traditional lines, Colorescience gives you beautiful results without disrupting healthy skin function. The line encompasses the essence of colore and the advancements in science to give your skin instant and long-lasting results."

colorescience®

ALL MINERALS ARE NOT created EQUAL

+ LOCKS IN MOISTURE

Water-resistant minerals form a protection barrier on the skin so skin stays clean and clear, like the water shown.

+ HIGH-INTEGRITY MINERALS

Real micronized minerals that are processed properly are completely water-proof and will not dissolve in water, which is why they float on top.

- MINERALS ARE NOT PROPERLY PROCESSED

Ingredients that muddy the water are not real minerals. Minerals that sink to the bottom, when placed in water, are not properly processed.

- FEW MINERALS PRESENT

If the ingredients bubble or foam in water, the makeup is not comprised of real minerals.

corrects

Wild To Mild

Soothing, smoothing skin bronzer.

Line Tamer

Soothing, smoothing skin brightener.

Metro Minerals®

Skin soother and smoother for men.

Chocolate Mousse

Rich bronzer that enhances dark complexions.

SunReliable™ Primers

Primed and Ready to Go

We call our liquid foundations “primers” because that is exactly what they do. They prime the skin. They are sheer and help the skin tone look even and the texture look smooth. While loose and pressed minerals stay on for many hours without need for reapplication, the primers take the mineral concept to a brand new dimension.

You will find that the combination of primers and mineral pigments will give you versatility in the way you wear your face!

Line Tamer Skin Brightener

The Look of Pores and Redness Disappear!

Smoothing & soothing. Moisturizer & mattifier. Helps skin look soothed, not stressed or red after skin treatments.

Wild to Mild Skin Bronzer

Smooth Operator!

Tantastic bronzer! Great for pre-sun and after-sun. Skin looks tanned, not burned. The texture of the skin looks more refined.

Chocolate Mousse

Taking Things One Delicious Step Further

The secret of the exceptional moisturizing ability in Chocolate Mousse is actually chocolate! This is an excellent choice for oily, break-out prone complexions because it hydrates skin and doesn't clog pores.

Metro and Real Minerals®

Minerals For Men Collection

Metro Minerals® is a skin soother and smoother that helps cover blemishes, razor burns and ingrown hairs, while **Real Minerals®** is a cooling and skin soothing gel that is a great after shave moisturizer.

My Favorite Eyes Cream

Eye Catching

A refreshing eye cream that is second to none. Look healthier and younger. Beta Carotene, Vitamin K and peptides work magic to reduce the appearance of dark circles, as well as moisturize the skin around the eye.

Turn The Tides

The Magic Wand

Pure aromatherapy with Vitamin E and Aloe Vera calms blemishes and camouflages redness.

Lip Polish

Woh't Kiss Off

Designed to stay on for hours and never runs in the lines of the lips. "Bed of Roses" is a softly wearable rose shade which emulates the look of healthy lip tissue while moisturizing and restoring the look of fresh, plump lips.

Optical Illusions

Mineral Magic

The Colore-Corrector pens are created with new patented "colore shift" pigment to give the illusion of light that is back lit and changing colore right before (and on) your very eyes! Quad-peptides improve the appearance of fine lines and puffiness, while chocolate extract reduces the appearance of dark circles. Luminescent light pigments reflect and refract light leaving the eyes looking bright, smooth and rested.

Aromatherapy Brush Cleaner

Mineral Maintenance

Sanitation is essential to achieve the best results from your Colorescience brush. Clean your brush after each use if your skin is being treated or has a skin disorder. Clean as needed if you have healthy skin.

The minerals are housed in a sealed compartment – separated by a sanitary filter, which keep the minerals free of contamination, making it the ideal choice for acne and sensitive skin. The bristles are 100% pashmina, the softest grade of cruelty-free goat hair, ideal to softly blend and buff the minerals onto the face. Our brush is the delivery system for all of our loose mineral pigments and is refillable – making it eco-friendly.

Colores

Colorescience® enhances your skin tone while allowing your natural radiance to shine through. The colore saturation of these minerals is remarkable. A little goes a long way. The minerals have a veil like quality which gives you the ability to layer colore over colore without a heavy appearance.

Protects

Colorescience® face colore adheres to and lies on top of the skin surface providing a protective barrier from the environment. It has great reflective properties and light absorbing properties to shield the skin from the harmful effects of the environment.

Corrects

Colorescience® offers post-procedure protocols that doctors have recommended to shorten the down time usually necessary with many treatments, especially peels, lasers and other aggressive skin regimes. A Perfect Ending protocol is offered to Aestheticians that leaves the skin looking flawless after facials and waxing, without harsh chemicals.
