

The SwissTEC™ Family of Products

SwissTEC™ is a focused skincare line that offers only the most effective ingredient formulations to alleviate a vast number of treatment concerns and conditions. The SwissTEC™ product line has been mindfully designed to give you the most dynamic results without unnecessary products that only serve to tie up inventory and take up room on your shelves.

SWISSTEC™

Targeted

Treatment Skincare Solutions

The SwissTEC™ skincare line offers a breakthrough in treatment skincare. Our 100% Swiss Technology formulations include advanced, exclusive ingredients that ensure optimal results while maintaining the skin's sensitive balance. Luxurious and calming, the SwissTEC™ skincare line offers advanced skin solutions without the irritation associated with other product lines. A comprehensive skincare regimen on its own, SwissTEC™ has also been designed to be the perfect complement to cosmetic treatments.

Designed To Support Technology:

- Exclusive formulations developed to maintain the results of cosmetic treatments.
- Progressive, unparalleled ingredients allow for ultimate calming, soothing and protective properties post-cosmetic treatment.
- SwissTEC™ products are free from parabens, alcohols and petroleum products while being dermatologically, ophthalmologically, safety tested and non-comedogenic.

Designed With Performance Technology:

- 100% Swiss made products offer 100% Swiss efficacy in treating the most concerning skin conditions with products that deliver a youthful, renewed and rejuvenated complexion.
- Performance ingredients and formulations found exclusively in SwissTEC™ products allow for the most dynamic treatment skincare results covering a vast spectrum of skin types and indications.
- SwissTEC™ is a focused line which allows users to understand the benefits of the regime without complicating their routine with unnecessary, ineffective products.

Effective

100% Swiss, 100% Effective

SwissTEC™ is exclusive for its superior, highly effective ingredient complexes which bring you the most advanced treatment skincare results. SwissTEC™ is developed and manufactured in Switzerland in compliance with the most arduous laboratory standards. Its progressive formulations are comprised of luxurious, high quality ingredients native to the most exclusive Swiss skincare laboratory located in the mountainous, secluded Swiss Riviera. For more than half a century, this world-class laboratory and its team of dermatologists have been known for their innovative research and development efforts while having pioneered the science of anti-aging, product innovation and cellular therapy in the realm of skincare. SwissTEC™ offers the benefits of these advancements in one effective treatment skincare solutions line.

Concentrated

Scientifically Advanced and Eco-Friendly

The SwissTEC™ line includes certified organic ingredients, enhancing the benefits to your skin, and at the same time being earth friendly. High performance ingredients are what make SwissTEC™ second to no other skincare line on the market.

Performance Ingredient Complexes

- **CIC₂**: Slows the signs of aging, lightening the look of brown spots while enhancing skin renewal, resulting in an overall improvement in radiance.
- **Ameliox**: Reverses the signs of deterioration to the skin's elastic tissue to reduce the appearance of lines of expression and wrinkles.
- **Sveltonyl®**: This firming complex renews skin's appearance, enhancing the look of tighter, youthful skin.
- **Aquarich™**: Locks moisture into the skin ensuring a long lasting, revitalizing effect. Improvement can be seen within 24 hours.
- **Pentavitin®**: A highly effective moisture regulator under the driest of conditions. Where most moisturizing agents would cease action, Pentavitin continues to be active and effective.
- **Vitamin C-PMG**: Reduces the appearance of wrinkles and photodamage due to its free-radical scavenging effect.
- **Aquaxyl™**: This antioxidant rich cocktail containing Vitamins A, B₂ and C re-mineralizes the skin enhancing its appearance upon application.
- **Oleuropein**: Improves the appearance of skin elasticity while absorbing oil and deep cleaning pores.
- **Evermat™**: Reduces the appearance of pores and improves the look of refined skin tone and texture.
- **Algisium C2®**: Restores the feel of moisture balance while soothing dehydrated skin.

Some products contain PENTAVITIN®. PENTAVITIN® is a registered Trademark of DSM.
