

EXO-GLO FACE SERUM

For patients committed to achieving better looking skin, EXO-GLO Biomimetic Exosomes is a non-negotiable protocol for rewriting their skin journey. With at-home daily use, the rejuvenating serum helps to improve aesthetic treatments combined with MG-EXO-GLO.

BIOMIMETIC EXOSOMES HAVE BEEN SHOWN TO:

- Reduce the appearance of pores
- Firm, tighten and tone the skin to improve elasticity and resiliency
- Reduce the appearance of fine lines and wrinkles
- Revive the skin with deeply hydrating and nourishing ingredients

Further enhancing the results of aesthetic treatments, Dp Dermaceuticals™ EXO-GLO should be considered a twice-daily non-negotiable for ongoing homecare.

ULTIMATE BENEFITS

- Skin looks visibly younger, more energized and refreshed
- Renews and brightens complexion
- Relieves redness and itching due to dryness
