For more precision,
speed and control

VISIONIX

 OPTOVUE | **briot** | WECO

The best finishing results with optimal control

Since its launch in 2012, the Briot Emotion edger has become an icon in the optical industry, praised for its ease of use and intuitive design. Over the years, it has evolved with cutting-edge technologies like Gravitech in 2018 and offering exceptional performance.

With the Emotion 3 and Perception 3, Visionix introduces two next-generation all-in-one edging systems delivering exceptional results for opticals looking for a core edging system for their lab.

The Briot Emotion 3 and the Briot Perception 3 feature patented Gravitech technology for precise 1:1 optical tracing in just 4 seconds. Their automatic drill hole detection and adjustable speed control ensure optimal accuracy and finish..

NEW CONTROLLED EDGING CYCLE

This new edging mode features an advanced anti-slippage cycle, keeping the ophthalmic lens stationary during edging to prevent misalignment or damage. Paired with Visionix's recommended double-sided pads, it ensures greater stability and precision. Adjustable edging wheel speed, combined with these pads, provides safe handling of high-value lenses to ensure a flawless finish.

Your all-in-one partner

GRAVITECH

With Gravitech-powered tracing, you can easily scan a demo lens in a few seconds with accuracy that is superior to a mechanical tracer.

DRILL MOUNTS MADE EASY

Never before has it been easier to do drill mount work. With Gravitech, you don't have to waste time manually programming drill-mounts. Just scan the demo lens, and the drill mount holes are instantly recognized with minimal adjustment needed.

(Not available on Emotion 3 Groove or Perception 3 Groove)

NO DEMO LENS? NO PROBLEM

The Emotion 3 comes equipped with a mechanical tracer for when a demo lens is not available. On the Perception 3, The Gravitech Optical Tracer can take a photo of the frame to recreate the shape.

EASILY SEE LENS MARKINGS AND ENGRAVINGS

With its high definition optical camera, laser engravings are easily seen making progressive layout simple.

MINI BEVEL, TILTED 10°, DRILLING AND GROOVING

These edgers are designed for efficient drilling and grooving. Easy to handle and dependable, it provides the precision you need for everyday tasks, making it the ideal tool for all your jobs. Our minibevel technology helps ensure a perfect cosmetic fit with thin metal frames.

Technical specifications

Briot Emotion 3 was designed by our engineers in Normandy, France, and assembled in our state-of-the-art factory with the greatest care. Each component is crafted with rigorous quality-control protocols at each stage of the process, and all parts are guaranteed for up to 2 years and backed by our robust support team, ensuring you maximum uptime and reliability of your machine.

DIMENSIONS :

WIDTH	29.4 in (747.3 mm)
DEPTH	23.6 in (600 mm)
HEIGHT	17.9 in (455 mm)
WEIGHT	151lb (68,5 Kg)
VOLTAGE	230 V-50 Hz 115 V-60 Hz

Complies with safety directives:

EN 61010-1, Di 2006/42/EC, Di 2014/35/UE, Di 2011/65/UE, Di 2012/19/UE

Complies with EMC directives:

Di 2014/30/EC, EN 61000-3-3 (EN 55016-2-3 "Classe B"), EN 61000-3-2, EN 61000-6-2

UL standards for 120 V version:

UL/CSA 61010-1

EMOTION 3 / PERCEPTION 3 - All-in-one edger

Tracing	<ul style="list-style-type: none">• Mechanical tracer* :<ul style="list-style-type: none">- Automatic 3D-Tracing- Monocular or Binocular Tracing Consecutively- Smooth manual frame clamping• Optical Tracing :<ul style="list-style-type: none">- All kinds of demo lenses with patented GraviTech Technology- Automatic Drill Hole Detection**- Shape Creator for freedom in designing shapes
