

SKINCARE REVOLUTION

**A PERFECT COMPLEMENT
TO FACIAL AESTHETIC
PROCEDURES**

Developed with
similar crosslinked
Hyaluronic Acid as in
our injectable fillers

TEOXANE

THE EXCELLENCE OF SWISS SCIENCE

SKINCARE REVOLUTION

As a major player in aesthetic medicine, Teoxane specializes in the design and manufacture of hyaluronic acid-based dermal fillers. With its scientific expertise, Teoxane is one of the first laboratories offering a range of innovative cosmeceutical care formulated with cross-linked Hyaluronic Acid from its patented process; RHA Resilient Hyaluronic Acid®.

The cosmeceutical range Teoxane is designed for patients who have undergone aesthetic medical procedures and want to continue their skin care with a targeted cosmetic routine designed specifically for them. It is also perfectly suited to women and men looking to discover an expert anti-ageing skincare line inspired by aesthetic science.

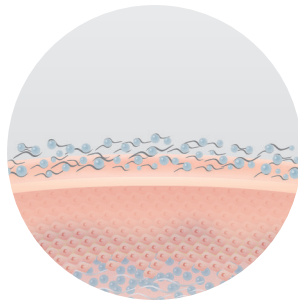

TEOXANE

THE EXCELLENCE OF SWISS SCIENCE

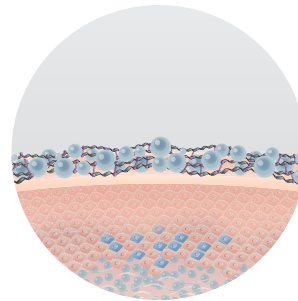

INJECTABLE STRENGTH AND RESILIENCE: EVOLVED INTO A TOPICAL INNOVATION

The superior benefits of RHA® compared to basic HA*

- 12.2% Transepidermal water loss compared to basic free HA.
- +7.6% Epidermis water content compared to basic free HA.
- + The cutaneous micro-relief of the skin seems to be smoother.

Basic Free HA
Less structured mesh
and thus less resilient
and less durable on
surface.

RHA Resilient hyaluronic acid®
A more structured, resilient and
durable mesh on surface which
creates a breathable skin barrier
for better resilience and water
retention.

*Ex-Vivo tests performed by an independent laboratory: hydration measures performed on epidermis with microscopic observations of skin's micro-relief.

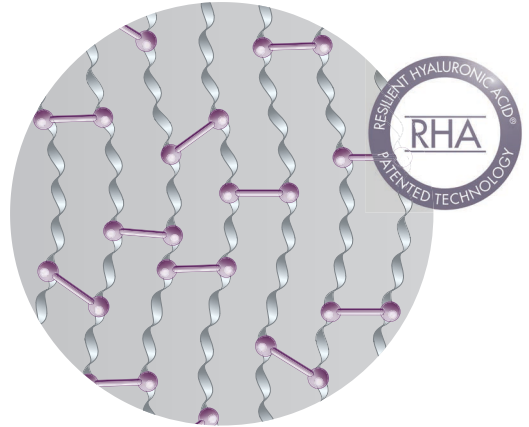

TEOXANE ANTI AGEING CORE FORMULA

RHA Resilient Hyaluronic Acid®

1

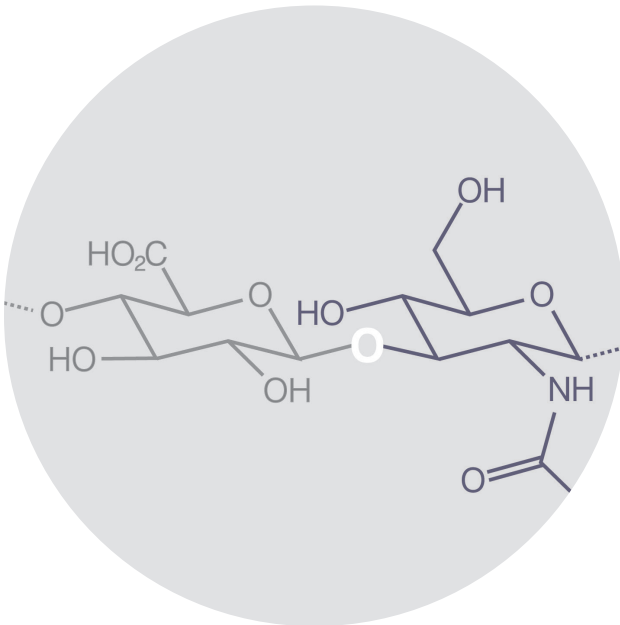

MAINTAINS AND PROTECTS SKIN HYDRATION LASTINGLY

RHA Resilient Hyaluronic Acid® -
Similar crosslinked Hyaluronic Acid
as used in our injectables

2

DISODIUM ACETYL GLUCOSAMINE PHOSPHATE

FIGHTS THE APPEARANCE OF WRINKLES, THE SKIN APPEARS VISIBLY YOUNGER

RHA® Micellar Solution

Prep make-up remover /
Cleansing solution
Face & eyes
200 mL
400 mL for professional use
pre-aesthetic treatment

SKIN TYPE

- All skin types
- Suitable for sensitive skin

Micellar Water 3 in 1:

Cleanser, toner and light make-up remover. Soap-free cleanser, that respects the hydro-lipidic film by not removing the natural lipids of the skin*.

PATIENT SATISFACTION*

97% of patients agreed that:

- The skin is perfectly clean from make-up and impurities
- The skin is hydrated
- The skin is toned

PROPERTIES OF KEY INGREDIENTS**

CORE FORMULA

RHA Resilient Hyaluronic Acid®
Maintains and protects skin hydration lastingly

Dermo-Restructuring Complex
Cocktail of amino acids, antioxidants,
vitamins and minerals
Revitalizes skin quality

Disodium Acetyl Glucosamine Phosphate
Natural constituent of Hyaluronic Acid
Fights the appearance of wrinkles,
the skin appears visibly younger

OTHERS

Rose Damascena Water
Soothes and calms skin
Astringent/toning agent suitable for sensitive skin

Chlorhexidine Digluconate
Prevents bacterial proliferation in the formula

Formula Properties: Micellar Water / pH: 5.00 - 6.00 / PAO (Period After Opening): 12 months

Use

Apply with a cotton pad to face, neck and eye area, morning and evening to gently cleanse skin, without rinsing.

Pre-aesthetic procedure recommendation

Apply to the face and eyes to prepare the skin for a professional aesthetic procedure.

*Self-assessment carried out on 31 volunteers during 28 days by an independent laboratory / **The properties of ingredients stem from data communicated by the raw material manufacturers.

AHA Cleansing gel

Face cleanser
150 mL

SKIN TYPE

- All skin types (except sensitive)

A multi-benefit foaming gel which thoroughly cleanses and purifies the skin. Its exclusive formula is designed to provide an efficient cleansing, hydrated skin and radiant complexion.

PATIENT SATISFACTION*

Most patients noticed that:

- **100%** The skin is clean
- **95%** Removes make-up
- **86%** The complexion is luminous
- **81%** Pore size is reduced

PROPERTIES OF KEY INGREDIENTS**

CORE FORMULA		OTHERS
	RHA Resilient Hyaluronic Acid® Maintains and protects skin hydration lastingly	Glycolic Acid (Alpha Hydroxy Acids) Resurfacing & gentle peel action Fruits Acid (Alpha Hydroxy Acids) Resurfacing & gentle peel action Brightening complex Skin radiance

Formula Properties: Foaming gel / pH: 4.80 - 5.00 / PAO: 12 months

Use

Use once a day in the morning or evening on a moistened face and neck. Lather and rinse thoroughly with warm water.

Pre-aesthetic procedure recommendation

Use each night before Perfect Skin Refiner, for 15-21 days before the procedure.

*Self-assessment carried out on 21 volunteers over 28 days by and independent laboratory

**The properties of ingredients stem from data communicated by the raw material manufacturers.

[3D] Lip

Nourishing & plumping
Lip Care

10 mL

SKIN CONCERNS

- Dry lips
- Lack of plumpness

Specially designed for lips, 3D Lip plumps, nourishes and hydrates the lips after* in-clinic treatments as part of home skincare routine, thereby providing a truly holistic approach to lip aesthetic treatments**.

PATIENT SATISFACTION **

Most patients agreed that 3D Lip has both an instant and long lasting effect on lip quality:

FROM THE FIRST APPLICATION, LIPS ARE:

- **100%** Nourished
- **100%** Smoothed

AFTER 28 DAYS, LIPS ARE:

- **91%** Hydrated
- **86%** Softer

PROPERTIES OF KEY INGREDIENTS ***

OTHERS

Microspheres of Hyaluronic Acid
Hydrate and plump

Microspheres of collagen
Hydrate and plump

Ceramide 2 and matrikine complex
Smoothing and anti ageing actions

Unsaponifiable shea butter
Nourishes

Formula Properties: Oily gel, non sticky / PAO: 9 months

Use

Apply on the lips and massage with the cryo-metallic tip.

*After a lip injection, please wait 48 hours before using the product. / ** In vivo and self-assessment test carried out on 22 volunteers during 28 days by an independent laboratory

***The properties of ingredients stem from data communicated by the raw material manufacturers.

R[II] Eyes

RHA® Eye Contour
Suitable for sensitive skin
15 mL

SKIN CONCERNS

- Fine lines and wrinkles
- Dark circles
- Puffiness

Specifically designed for the eye contour area, R[II] Eyes offers a comprehensive solution to the major concerns of this specific area.

Airless packaging for optimal preservation.

PROVEN EFFICACY*

FROM THE FIRST APPLICATION:

- **13%** Reduction in puffiness
- **5%** Lightening of dark circles

AFTER 28 DAYS OF USE:

- **24%** Reduction of fine lines and wrinkles
- **19%** Lightening of dark circles

PROPERTIES OF KEY INGREDIENTS**

CORE FORMULA

RHA Resilient Hyaluronic Acid®
Maintains and protects skin hydration lastingly

Dermo-Restructuring Complex
Cocktail of amino acids, antioxidants, vitamins and minerals
Revitalizes skin quality

Disodium Acetyl Glucosamine Phosphate
Natural constituent of Hyaluronic Acid
Fights the appearance of wrinkles, the skin appears visibly younger

OTHERS

HA Fragments
Hydrate

Escin & Hamamelis extract
Descongests

EPS Seafill
Smoothes and plumps instantly

Pigments and soft focus
Unifies and illuminates

Formula Properties: Lightly tinted cream / pH: 5.50 - 6.50 / PAO: 12 months

Use

Apply morning and evening. First, using light pressure, tap the flat part of the metallic tip along the eye area to help cool and drain with a decongesting effect. To apply product, push lightly on applicator and massage gently until fully absorbed.

1. Target puffiness

2. Smooth the appearance of wrinkles & fine lines

3. Smooth the appearance of the crow's feet

4. Tone, revitalize

*In-Vivo study carried out on 23 volunteers by independent laboratory during 28 days. / **The properties of ingredients stem from data communicated by the raw material manufacturers.

RHA® Serum

Hydrating & plumping
30 mL

All skin types

SKIN CONCERNS

- Dehydration
- Dull complexion
- Fine lines and wrinkles
- Loss of firmness

The highest concentration of Teoxane hydrating and revitalizing remarkable ingredients combined with antioxidants for significant hydration, improvement of skin properties (firmness & tonicity) and clear enhancement of skin quality. The radiance, tone, texture of the skin is revived.*

Airless packaging for optimal preservation.

PATIENT SATISFACTION**

AFTER 14 DAYS, PATIENTS NOTICED THAT:

- **97%** Skin is more hydrated
- **94%** Complexion is brighter
- **91%** Skin is smoother
- **91%** Skin appears more resistant

PROPERTIES OF KEY INGREDIENTS***

CORE FORMULA	RHA Resilient Hyaluronic Acid® Maintains and protects skin hydration lastingly	OTHERS	Sodium Hyaluronate Hydrates and plumps

Soothes

Formula Properties: White rich cream / pH: 5.00 - 5.70 / PAO: 12 months

Use

Apply by massaging gently as often as necessary on dry or irritated areas caused by external factors.
Ideal in winter, when the skin is particularly irritated by the wind, the cold, or after exposure to the sun.

Post-aesthetic procedure recommendation

For a week following an aesthetic procedure, apply by massaging gently as often as necessary to soothe sensitized skin.

*In-Vivo test and self-assessment performed on 20 volunteers during 28 days by an independent laboratory. / **The properties of ingredients stem from data communicated by the raw material manufacturers.

Perfect Skin Refiner

Gentle peel resurfacing
NIGHT
50 mL

SKIN CONCERNS

- Dull complexion
- Visible pores
- Signs of ageing
- Pigmentations spots

Optimum balance of Glycolic Acid (10%)* and RHA Resilient Hyaluronic Acid® for gentle and effective exfoliation and hydration even for the most sensitive skin. Ideal for blemish-prone skin and skin with imperfections

PATIENT SATISFACTION **

AFTER 28 DAYS, PATIENTS NOTICED THAT:

- o **90%** say the skin is smoother
- o **74%** say the pore size is reduced
- o **84%** say the complexion is more uniform

PROPERTIES OF KEY INGREDIENTS ***

CORE FORMULA	RHA Resilient Hyaluronic Acid® Maintains and protects skin hydration lastingly	OTHERS	Glycolic Acid (10%) Helps skin's natural exfoliation to improve the appearance of the skin's tone and texture
	Dermo-Restructuring Complex Cocktail of amino acids, antioxidants, vitamins and minerals Revitalizes skin quality		Lipopeptide and Allantoin Soothe and calm sensitive skins
	Disodium Acetyl Glucosamine Phosphate Natural constituent of Hyaluronic Acid Fights the appearance of wrinkles, the skin appears visibly younger		Vitamin E Antioxidant

Formula Properties: White cream / pH: 4.00 - 5.00 / PAO: 12 months

Use

Apply at night to a cleansed face and neck. Avoid contact with eyes and lip contour area.

- For sensitive skin: use PERFECT SKIN REFINER 1 time per week and increase the frequency according to the tolerance.

- For normal skin: use PERFECT SKIN REFINER every night.

- For mature skin / dry to very-dry skin: alternate between PERFECT SKIN REFINER and RHA® SERUM nightly, then increase the frequency of PERFECT SKIN REFINER according to the tolerance.

Pre-aesthetic procedure recommendation

Apply each night after AHA Cleansing gel, 15 - 21 days before procedure.

PRECAUTIONS FOR USE: Do not apply to the eyes or mucous membranes. If any splashes occur on these areas, rinse thoroughly with plenty of fresh water. / Avoid sun exposure while using this treatment, in the case of sun exposure, use sun protection, avoid saunas, steam rooms and Turkish baths. / Use this product alone. Do not use a skincare cream after applying this product. / A mild transient tingling sensation may occur. This is temporary. Minor redness may appear, particularly after the first applications, but should ease quickly. / If it persists, increase the amount of time between applications and apply on alternate evenings. Once the irritation has disappeared return to normal application. / The product should not be used on persons with known hypersensitivity to any of the formula's components. / Keep out of the reach of children. / In the event of reaction during use, stop treatment and consult a doctor. / This product is for topical use only.

*Glycolic Acid is an active molecule. Highly concentrated, it can, like all fruit acids, cause irritation in some skin types. Before applying to the face we recommend testing skin tolerance on a less exposed area. / **Assessment and self-assessment results of a multicenter study carried out on 31 volunteers during 28 days by 2 independent aesthetic practitioners and 2 dermatologists. / ***The properties of ingredients stem from data communicated by the raw material manufacturers

Post Procedure

Soothing aftercare fluid
200 mL
